

# Nima Joharizadeh

School of Mathematics, Statistics and Computer Science,  
College of Science, University of Tehran,  
Tehran, Iran.

*Cell:* +98 (912)779-8381  
*Email:* nimajohari@gmail.com  
*Web:* <http://johari.me>

EDUCATION      **B.Sc. in Computer Science**      September 2009–Present  
School of Mathematics, Statistics and Computer Science  
University of Tehran, Tehran, Iran

Cumulative Grade Average: 15.80/20 (Last two years: 16.28/20)

Relevant courses: (GPA: 18.22/20)

Discrete Mathematics (20/20), Theory of Computation (20/20), Foundations of Mathematical Sciences (20/20), Coding Theory (20/20), Formal Languages and Automata (19.5/20), Numerical Linear Algebra (19.5/20), Foundations of Computer Systems (19/20), Algorithmic Graph Theory (18.7/20), Operating Systems (18.5/20), Software Engineering (18/20), Math. for CS (17.3/20), Logic in CS (17/20), Programming Languages (16.5/20), Design and Analysis of Algorithms (16/20), Data Structures (15.5/20), Compiler Design and Implementation (15.5/20).

PUBLICATIONS      ▷ Alizadeh, M., **Joharizadeh, N.** *Counting weak-Heyting algebras [submitted]*, (October 2013)

HONORS AND      ▷ **Prof. Haydeh Ahrabian scholarship**      November 2013  
AWARDS           ◇ Awarded by the department to outstanding students

▷ **Java Challenge Winner Team**      February 2013  
    ◇ Countrywide Java competition held in Sharif University of Technology  
    ◇ 3rd place among 27 teams, Tehran, Iran

OPEN SOURCE      ▷ **Docopt RACC and Docopt.rb** <sup>1</sup>      July 2012 - Present  
SOFTWARE / MISC.      Command-line option parser. Domain Specific Language (DSL)  
PROJECTS      Ruby port of *Docopt* project (written originally in Python)

▷ **Online query runner for Visser algebras** <sup>2</sup>      August 2013  
    Direct result of the paper *Counting weak-Heyting algebras*, written in Ruby

▷ **prrg.ex** <sup>3</sup>      November 2013  
    An implementation of “prorogues” in Elixir language

▷ **Adobe Color File Generator**      March 2007  
    ACO file generator, written in PHP  
    Nominated entry for *phpclasses.org Innovation Award (March 2007)*

▷ **dbgrx86**      June 2010  
    A Debugger written in x86 assembly (NASM, Linux) and C  
    Course project for Fundamentals of Computer Systems course

A comprehensive list of open source projects is available on my github<sup>4</sup> profile.
